## Hadley Wood Hospital Gastroenterology

Hadley Wood Hospital offers a wide range of diagnostic and treatment services for symptoms and conditions involving the digestive system and digestive tract. This includes a number of minimally invasive investigative procedures using the latest innovative technologies, and many can be performed on an outpatient basis.

Our gastroenterology specialists have a wealth of experience in investigating and treating common conditions such as:

- Abdominal pain
- Abnormal liver function tests
- Acid reflux
- Alcohol liver disease
- Cirrhosis
- Coeliac disease
- Constipation
- Diarrhoea
- Dyspepsia
- Fatty liver
- Food allergy
- Gastrointestinal bleeding
- Indigestion
- Inflammatory bowel diseases (ulcerative colitis and Crohn's disease)
- Irritable Bowel Syndrome (IBS)
- Pancreatic disease

We understand that these symptoms and conditions can have a significant impact on your wellbeing and quality of life. Our aim is to make the diagnostic process as efficient and convenient as possible for all patients and provide the highest levels of care, treatment and specialist advice, to help you regain control of your digestive health.

Hadley Wood Hospital offers the following gastroenterology services for patients:

- Cancer Screening
- Capsule endoscopy
- Colonoscopy
- Endoscopy
- Fibroscan
- Flexible sigmoidoscopy
- OGD/Gastroscopy
